In the logitrans Exhibition, which I have been participating in for 6 years, we completed the fair very efficiently this year as well. It has been very beneficial for us to meet with both our customers and industry stakeholders after the long pandemic process. We took our place at the fair again next year, we are waiting for the new fair with excitement, with the hope that domestic and international participation will be more.

As DSV, we took our place as an exhibitor for the second time in logitrans 2021, after our first participation in 2019. During the fair, we were very pleased to host our customers, business partners and industry stakeholders at our stand.

Of course, by paying attention to mask and distance measures; We think that it is a very productive exhibition for our team and visitors, in terms of making up for the lack of face-to-face meetings, which unfortunately has not been possible for a long time.
