**international transport
logistics exhibition**

Istanbul is the center of International logistics for a global supply chains. With a new record of 201 exhibitors from 23 countries and around 12 thousand visitors from 43 countries, logitrans 2023 once again confirmed Turkey's strategic importance as a hub for international logistics. With overwhelming participation and technical depth, the fair provided an insight into the current state of the logistics industry in Turkey and its role in global supply chains.

logitrans 2023, which we exhibited for the 5th time, was an ideal opportunity to exchange ideas across sectors. The exchange of views on forward-looking strategies, possibilities and projects gave us valuable momentum to further develop our breakthroughs and investments.

**Vittorio Zagaia, Vice President & CEO,
Galata Lojistik**

Organizing logitrans in Istanbul provides added value to both the Turkish logistics sector and the regions and countries where it is positioned as an intersection point. The geographical location of Türkiye and Istanbul, where production and logistics are managed, is very important. Therefore, it is strategic for us to have the fair in this city and to take part in the fair.

Onur Talay, CEO, Sarp Intermodal

The trade fair not only offered us a platform to present our innovations, but also provided valuable insights into the changing logistics landscape in the region. The high quality of the trade visitors underlines the relevance of this market for us.

Cevat Arslan, Türkiye Manager, Dark Blue Shipping

TransContainer has participated in Logitrans for the first time. We were impressed by the number of visitors and conducted very fruitful meetings at the fair, so we are looking forward to taking part in the exhibition next year.

**Tatiana Mikhailova, Chief Manager, Business Cooperation and International Affairs Department,
PJSC TransContainer**

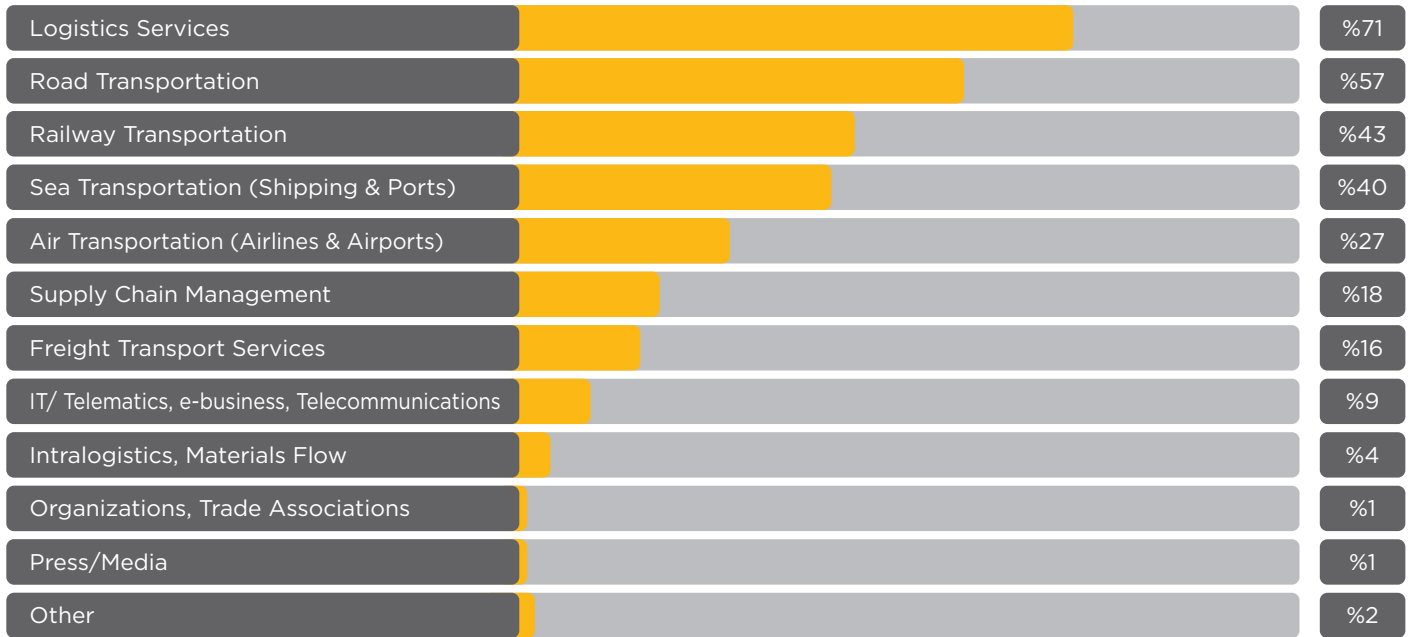

In 2023 it was our second year of participation, after a successful premiere in 2022. So in 2023 the mix of companies brought to the fair in Istanbul knew well what to expect and how to prepare themselves. The stand was then all 3 days full of invited guests and directly at the point several contracts have been concluded. Successful were however also the non-invited meetings and spot guests. All participants report an increasing interest in mutual cooperation between Turkish and Czech logistic providers, especially in the railway sector, but also on digitisation and IT-solutions.

Dr. Petr Rožek, Executive Director, Association of Forwarding and Logistics, CZ

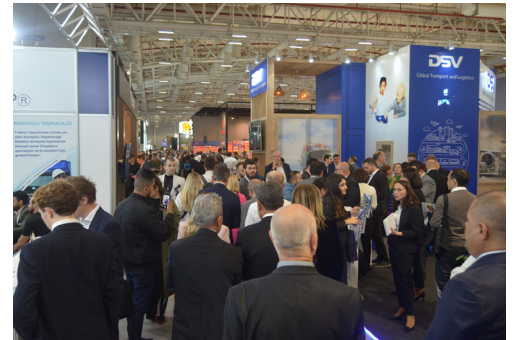

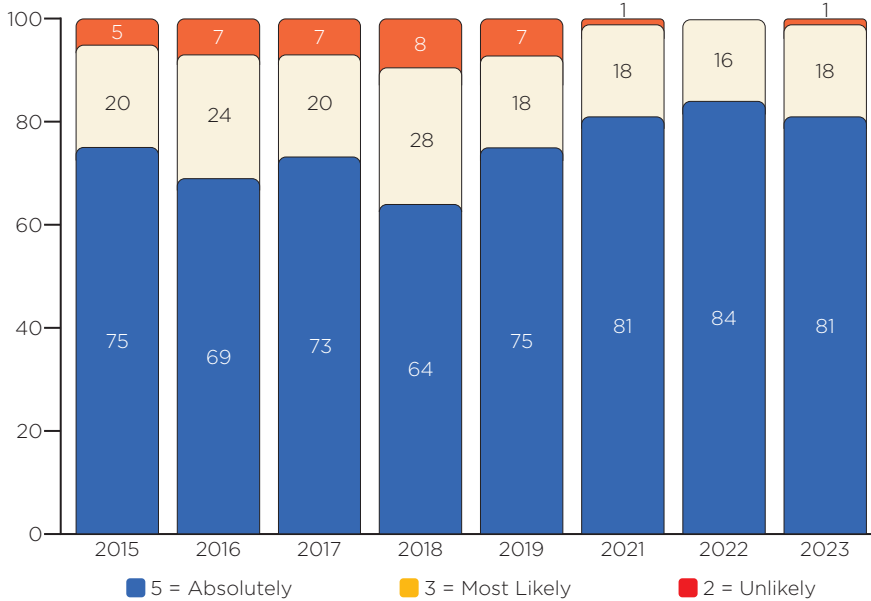

logitrans provided a truly international platform and we had an experience of strengthening our business connections. Throughout the fair, the intense participation provided us, our visitors, and industry stakeholders with enjoyable and productive moments, while also presenting the potential for new business opportunities. We also plan to participate in the Logitrans fair in 2024 with the same excitement and determination. We eagerly look forward to utilizing the knowledge and connections gained from this experience in our future projects.

exhibition and conference

While Turkey has taken important steps to become a hub, the pulse of the air cargo industry will again be taken at logitrans hosts conference and meeting programs for the air cargo sector. The industry's most important players regularly take part in the trade fair. air cargo Turkey, which is a special part of logitrans, will be the ideal event of the year to follow up the developments in this highly dynamic industry.

Developing and changing modes of transport have not affected the popularity of road transport. The commercial vehicle sector, which enables the flow of transport on roads, is still the flower of the industry. Key players of the truck, trailer and light commercial vehicles industries are coming together at this special event program at the only logistics fair of Turkey, one of the largest commercial vehicle manufacturing countries in Europe.

exhibition and conference

rail cargo Turkey, will carry the railway transportation to the focus point again. This special section, which is the latest product of logitrans' motivation to develop the logistics sector in all respects, is a candidate to be the favorite activity in 2024 where international sector leaders and pioneers of railway transportation will come together. You can follow up the latest developments from rail transportation industry which shows significant improvements each year in rail cargo Turkey.
